

Course Information

Title	Flipped Classroom
Number of participants	Min 5
Duration	5 days
Language	English
Locations	İzmir , İstanbul , Kuşadası
Certification	Europass Certificate
Price	400 Euro

Course Content

Description	<p>A flipped classroom is an instructional strategy and a type of blended learning, which aims to increase student engagement and learning by having pupils complete readings at home and work on live problem-solving during class time.</p> <p>In traditional classroom instruction, the teacher is typically the leader of a lesson, the focus of attention, and the primary disseminator of information during the class period. The teacher responds to questions while students defer directly to the teacher for guidance and feedback.</p> <p>The flipped classroom intentionally shifts instruction to a learner-centered model, in which students are often initially introduced to new topics outside of school, freeing up classroom time for the exploration of topics in greater depth, creating meaningful learning opportunities.</p> <p>With a flipped classroom, 'content delivery' may take a variety of forms, often featuring video lessons prepared by the teacher or third parties, although online collaborative discussions, digital research, and text readings may alternatively be used.</p> <p>The course gives emphasis on the methods and techniques to create flipped classroom model.</p>
Course Modules	<p>What is flipped classroom.</p> <p>Explore the pedagogical approach to flipped learning and how it differs from. traditional teaching.</p> <p>Role of video in The Flipped Classroom.</p> <p>Which Tech Tools Are Right For Your Flipped Class?</p> <p>Creating a detailed Flipped Classroom lesson plan.</p> <p>Integrate social media channels as a tool for flipped classroom teaching methods.</p>
